Let's Bridge the Gap

Business Questions & Visualisation Report

Date	28/10/2026	**Team ID**	en25cs3010389
Project Name	Global Fuel Taxation Trends	**Maximum Marks**	5 Marks
Team Member	Harshika Jain		

This report frames 8 analytical business questions to uncover insights into global fuel taxation patterns, pricing, and national subsidies using data structured in Snowflake.

Q1: Which 5 countries impose the highest total tax percentage on retail gasoline?

```
SELECT country_name, tax_percentage, retail_price_usd FROM GLOBAL_FUEL_TAXES WHERE fuel_type = 'Gasoline' ORDER BY tax_percentage DESC LIMIT 5;
```

Visualisation: Horizontal Bar Chart showing Netherlands (64%), Italy (61%), France (59%), Germany (58%), and UK (57%).

Q2: How has the average global tax rate on diesel evolved over the past decade (2016-2026)?

```
SELECT year, AVG(tax_amount_usd) AS avg_tax_usd FROM GLOBAL_FUEL_TAXES WHERE fuel_type = 'Diesel' GROUP BY year ORDER BY year ASC;
```

Visualisation: Line Trend Chart depicting upward slope from $0.32/L in 2016 to $0.48/L in 2026.

Q3: What is the distribution of net fuel subsidies vs taxes by geographic region?

```
SELECT region, policy_type, COUNT(country_code) AS country_count FROM GLOBAL_FUEL_TAXES GROUP BY region, policy_type;
```

Visualisation: Stacked Column Chart comparing Net Taxing vs Subsidizing regions (Europe vs Middle East & Africa).

Q4: How does GDP per capita correlate with national fuel tax rates?

```
SELECT gdp_per_capita, tax_percentage FROM COUNTRY_ECONOMIC_METRICS c JOIN GLOBAL_FUEL_TAXES f
ON c.country_id = f.country_id;
```

Visualisation: Scatter Plot with trendline indicating a strong positive correlation (r = 0.74) between GDP and Tax %.

Q5: What is the average taxation difference between Premium Gasoline and Commercial Diesel?

```
SELECT fuel_type, AVG(excise_duty_usd) AS avg_excise, AVG(vat_percentage) AS avg_vat FROM
GLOBAL_FUEL_TAXES WHERE fuel_type IN ('Gasoline', 'Diesel') GROUP BY fuel_type;
```

Visualisation: Grouped Bar Chart highlighting higher excise tax on Gasoline ($0.42/L) vs Diesel ($0.31/L).

Q6: Which countries have transitioned from fuel subsidies to net taxation over the last 5 years?

```
SELECT country_name, year_2021_policy, year_2026_policy FROM FUEL_POLICY_TRANSITIONS WHERE
year_2021_policy = 'Subsidy' AND year_2026_policy = 'Tax';
```

Visualisation: Transition Flow Diagram showing reform shifts in developing economies (e.g., India, Indonesia, Egypt).

Q7: What is the impact of carbon tax implementation on final pump prices in OECD nations?

```
SELECT country_name, carbon_tax_per_ton, pump_price_usd FROM OECD_FUEL_TAXES WHERE carbon_tax_active = TRUE ORDER BY carbon_tax_per_ton DESC;
```

Visualisation: Dual-Axis Combination Chart mapping Carbon Tax ($/Ton) against Total Pump Price ($/Liter).

Q8: What proportion of total national government revenue is generated through fuel excise duties?

```
SELECT region, AVG(fuel_tax_revenue_share_pct) AS avg_revenue_share FROM NATIONAL_REVENUE_STATS GROUP BY region ORDER BY avg_revenue_share DESC;
```

Visualisation: Donut Chart showing fuel tax contribution to national budgets (Avg 7.2% globally, peak 14% in Sub-Saharan Africa).
