Communication

Date	28 October 2026
Team Name	Harshika Jain
Team ID	EN25CS3010389
Project Name	Global Fuel Prices and Taxation Trends
Maximum Marks	1 Mark

Communication Plan:

Effective communication is essential for a successful project demonstration. This document outlines the communication strategy used within the team and with stakeholders throughout the project lifecycle, including how updates, issues, and feedback were managed.

S.No	Communication Type	Frequency	Channel / Tool	Participants	Purpose
1	Team Standup	Daily	WhatsApp / Google Meet	Harshika Jain	Plan the day's tasks such as data checking and building Tableau worksheets
2	Progress Update	Weekly	Email / SkillWallet Portal	Harshika Jain, Mentor	Share completed sections: data preparation, visualizations, dashboard
3	Issue / Bug Discussion	As Needed	Google Meet / Chat	Harshika Jain, Mentor	Resolve Tableau issues such as aggregation errors, map roles and data formats
4	Stakeholder Review	Bi-Weekly	Google Meet	Harshika Jain, Mentor	Review the dashboard and story and collect feedback
5	Final Demo Rehearsal	Once	Google Meet / Tableau Public	Harshika Jain, Mentor	Practise the demo flow and check dashboard filters and the published link
6	Documentation Sharing	Weekly	Google Drive	Harshika Jain	Store project documents, screenshots and the final report in one place

Communication Challenges & Resolutions:

S.No	Challenge Faced	Resolution / Action Taken
1	Crude oil price was added up using SUM, which gave misleading totals for comparison	Changed the aggregation to Average (AVG) so that prices can be compared fairly; confirmed the change with the mentor
2	Unclear whether tax percentage was stored as a fraction (0.20) or a percentage (20)	Checked the values in the Data Source tab and applied consistent number formatting before building the charts
3	Trend line chart became cluttered when many countries were selected	Used filters to compare only 3 to 5 countries at a time, which made the chart clear
